

SCHNABEL is a 35 year old organisation, headquartered at Germany, with a focus on design consultancy, planning, project management, audit and training for Data Center site infrastructure. We have executed over 500 projects internationally, and are completely vendor-neutral. We have been in India for over a year now, and are addressing 890,000 sq ft of Data Center area in the country.

SCHNABEL DC Consultants India chairs the Expert Group on Energy Efficient Data Centers under the IAEMP, and is a Steering Committee member defining the Design Code and Best Practice Manual for Energy Efficiency in Indian Data Centers.

At the Bangalore office, SCHNABEL is looking for a

Project Manager

Your responsibilities:

- Designing of civil, structural and architectural aspects of a Data Center
- Supervising and managing all project related processes
- Liaising with clients
- Ensuring quality of deliverables to clients
- Working with the rest of the project delivery team to ensure successful conclusion of projects

Your profile:

- Bachelor of Architecture or any other equivalent degree
- At least 12 years of experience in civil, structural and architectural design experience
- Data center exposure desirable, but not a must
- Speed, energy, flexibility and resilience
- Excellent team management skills
- Good organizational and presentation skills
- Adequate level of creativity and innovation
- Very good language skills in English (fluent in writing and speaking)
- Sound business ethics
- Candidates should be able to join as soon as possible
